

## The Mexican Wolf

I'm a Mexican Wolf and I want to tell you about a Mexican wolf's life. A Mexican wolf might have gray, black and or have a reddish color. The Mexican Wolf has short ears that are round.

Wolfs also have a blocky muzzle. Wolf's make yapping,howling,barks,and scream sounds.Mexican wolves are the largest animal from the dog family. Me and my family went hunting and bro this random hunting team came and said' "Do you see these wolfs Jack?" Jack replied with"Yup,perfect." They pulled out there tools and yelled "FIRE!" We tried to run but they still got us.

If people did not hunt us I would love it. One time a person came up to us and we bit him because he looked like he was gonna harm us wolves. Another time people came up to us and asked 'Are 'these wolfs?" The other one replied with "Nope" We got scared and then they just went on their way. I hate people who try to kill us, they are annoying and im just trying to live a normal life like them like jeez just trying to feed my family.

In conclusion, stop killing Mexican wolves! Hope you enjoyed the story of me as a Mexican Wolf. It would be sad if they went extinct. The ESA protects the wolfs.**SAVE THE WOLFS NOW!**
